Invest the right way!

COMPANY

WHO WE ARE

MELFORM, leader in the field of systems for the controlled temperature transport, is an Italian company, specialized in the study, engineering and production of insulated and refrigerated containers for logistics and a wide range of trays and tableware accessories for Foodservice. MELFORM boasts a highly qualified R&D Department able to study custom solutions for specific needs of handling, storage and delivery. MELFORM has always been synonymous of safety and quality: our containers, known worldwide, comply with current regulations: they are NF certified, safe to work in a HACCP environment and ATP certificate for the transport of perishable products.

Thanks to the experience and the advanced technology of Bonetto Group, the engineering area has been improved, consolidating its know-how in rotational and compression molding.

MELFORM - Bonetto Group represents a reliable partner where temperature is the essential requirement for the QUALITY of the products.

EXPERIENCE - On the market for over fifty years, Melform is leader in the cold chain solutions and temperature control systems. **MELFORM - Bonetto Group** represents a reliable partner where temperature is the essential requirement for the QUALITY of the products.

TECHNOLOGY - Produced with the rotational moulding technology, our containers are made of polyethylene suitable to food contact and insulated with polyurethane foam without CFC and HCFC. With a special attention to details, our products are individually tested and carefully checked by the quality department before being placed on the market.

KNOW-HOW - MELFORM adopts Business Management Systems which cater to the requirements of international standards.

- **Business Management Systems**
- **UNI EN ISO 9001:2015 - Quality Management Systems**
- **NF par AFNOR certification**
- **ATP certification for transport of perishable goods**

COMPANY

VISION, MISSION & VALUES

Vision

Our main goal is the customer satisfaction, as the ability to provide products and services that fully comply with their expectations. All this paying the utmost attention to respect for the environment, health and safety in the workplace, privacy, relationships with employees, collaborators and the surrounding area, and the enhancement of social and human relationships.

Mission

MELFORM is a dynamic leader in the cold chain solutions. We produce and offer a wide range of products for foodservice and logistics with the higher standards, in terms of materials, technology and performances .

Quality is a state of mind at MELFORM.

Values

Collaborate: Do great things together.

Innovate: Search for a better solution. Then top it!

Honest: Make us proud.

Competitive: Play fair, play hard, play to win.

WHY MELFORM?

CUSTOM MADE

The production flexibility and know-how of our technical staff allows us to create and customize products based on customer needs.

HACCP COMPLIANT

Melform isothermal containers, made with rotational molding technology and compliant with HACCP regulations, allow the products to be kept at the correct temperature, limiting the risk of uncontrolled growth of bacteria.

ATP CERTIFICATION

Sturdy and resistant, they are suitable for the transport of perishable products by road as they are ATP certified for the transport of fresh or frozen products. They guarantee cold chain from the logistics base to the end user for a service in total safety.

ECO FRIENDLY

The circular economy of our containers: A concrete gesture for our planet.

CIRCULAR: structure in recyclable plastic material

ECONOMIC: reusable for different operative cycles

SUSTAINABLE/RESPONSIBLE: at the end of the operative life, it can be disposed of, giving life to new products

WHAT WE DO

FOODSERVICE DIVISION

MELFORM produces a wide range of PROFESSIONAL TRAYS, INSULATED CONTAINERS and TABLEWARE ACCESSORIES for hotels, catering and food service companies.

HIGHLY RELIABLE sturdy and durable work tools
SAFE AND COMPLIANT with regulations
ECOFRIENDLY

Our staff is ready to offer a complete service, including a widespread after-sales support service to its customers

EFFECTIVE SOLUTIONS

ADDED VALUE IN THE WORK CYCLE

CUSTOM MADE PRODUCTS

WHAT WE DO

FOODSERVICE DIVISION

Our answers:

How to deliver meals at the correct temperature
How to comply with the standard regulations

How to preserve product quality
How to solve the logistics in an industrial kitchen

Service Trays

- Polyester
- Laminate
- Polypropylene & polystyrene
- Non-slip
- ABS

HIGHLY RELIABLE
Sturdy and durable work tools.
Over 50 models of shapes, materials and finishes to offer the customer the optimal solution for his business.

SAFETY AND HACCP COMPLIANT:
Melform trays are easy to wash and disinfect, they do not release harmful substances on contact with foods.

CUSTOMISATION
INTRODUCE YOUR COMPANY IN A UNIQUE WAY

Insulated containers

A complete line of insulated and refrigerated containers for the delivery of hot, fresh and frozen products.

Manufactured using rotational moulding technology our containers are free of sharp edges, joints and welds.

Their shape and design allow an easy disinfection and grant a very low thermal dispersion.

Polycarbonate

CONVENIENT & FUNCTIONAL
MELFORM polycarbonate GN pans and tableware accessories are shock resistant and shatterproof to ensure maximum safety for service personnel.

SAFE & COMPLIANT
Our polycarbonate is designed to be easily cleaned and disinfected to grant an absolute hygienic protection of the product.

HIGH PERFORMING
Temperature range allowed: from -40°C to +120°C

Handling Trolleys

Wide range of handling trolleys for any purposes.

LIGHTWEIGHT & EASY HANDLING
Easy to maneuver thanks to their practical handles, our trolleys are suitable to carry multiple containers in total safety.

MONOBLOCK SHOCK-PROOF BODY
Made in polyethylene, they do not damage furniture or walls in case of accidental contact.

STABLE AND DURABLE
Free of sharp corners, MELFORM trolleys are fully reliable and durable over time.

WHAT WE DO

LOGISTICS DIVISION

ATP certified , MELFORM insulated and refrigerated containers are available in a wide range of versions and accessories.

Our containers can be customized in color, shape and size to meet all customer needs. This represents the strenght of a brand that wants to attend the consumer towards the optimal choice.

Technology and raw materials

Produced with the rotational moulding technology, our containers are made of polyethylene suitable to food contact and insulated with polyurethane foam without CFC and HCFC.

Unbroken cold chain

MELFORM containers are equipped with RFID systems and USB DATA LOGGERS for tracking and tracing deliveries.

Safety and quality protection

MELFORM insulated boxes allow to carry different types of products at different temperatures preventing the risks of uncontrolled bacterial proliferation.

WHAT WE DO

LOGISTICS DIVISION

Deliveries anywhere anytime

Monolithic structure - Easy cleaning & sanitizing
No sharp edges, joints or welds
Absence of thermal bridges

Components made of stainless steel
ATP certification - ISO 9001
Customizable - 100% recyclable

Cargo Line

High capacity insulated containers.

Cargo insulated containers allow to easily manage the distribution of perishable products without cold chain interruption. Transporting at the right temperature means preserving the safety and quality of the products and preventing risks of uncontrolled bacterial proliferation. Furthermore, the use of MELFORM eutectic plates allow to further prolong temperature maintenance of the products during transport.

Koala Line

Portable & mobile refrigerators.

Particularly studied for the storage and transport of products and/or thermosensitive and thermolabile materials for which an accurate temperature control is needed.

- Temperature range: -30°C $+40^{\circ}\text{C}$
- ATP certification
- Double power supply
- Accuracy & reliability

Drlcy Line

Insulated containers for handling, storage and delivery of dry ice.

Three different sizes and capacities to meet the needs of transporters.

- MELFORM patented construction technology
- Smooth bottom and drainage system
- Perfectly stackable
- Fully recyclable
